How to use this planner

Make it yours

Open in any reader that supports forms — Adobe Acrobat, Apple Books or Preview, or a tablet app like GoodNotes — then tap any line and type. Or simply print it.

One planner, every trip

Reprint or duplicate the day, budget, and packing pages for each new journey. It is designed to last you for years.

Plan in gentle order

Begin with the Trip Overview, then drift through Itinerary, Budget, Packing and Reservations. Keep the Journal close while you travel.

Made to be beautiful

Warm paper tones, an elegant serif, and plenty of room to breathe — a planner that feels as considered as the trip itself.
